Subject: Re: EQ Emergency Preparedness Plan

Hi Laurie.

I had to put together an emergency plan for the City Clerk's
Office. The plan is attached to a separate email.

Greetings all,

Have any of your put together an EQ Emergency Preparedness Plan
for your district or do you know of any agencies that might assist in
doing so? See email below for background info.

Hi Laurie,

One of the biggest concerns I have that I imagine is shared
throughout the area is the response expectation of each other and
authorities to a large scale earthquake with significant infrastructure
and property damage. I know we've had symposiums before with city
authorities outlining response at a very high level (I.e., don't count
on the LAFD or PD being able to jump in and assist individual
properties) but the reality is that with such a high population
concentration we would be in a unique situation. I think all the members
would benefit from an open discussion regarding individual response and
recovery plans so that we can establish some level of unity. As a hotel
member we fully expect that we might become the destination for many of
the surrounding offices and other businesses that don't have the
resources we have. If we could engage professionals from FEMA, Homeland,
Red Cross, etc. they may be able to assist us in a wider scale response
plan that we could ultimately incorporate into our property level plans.
Let me know your thoughts.
